FAZIOLI

Ebony Concert Grand

Finally, Imperfect Samples is proud to announce the World's Largest Sampled Grand Piano*.

This ten foot Fazioli Ebony Concert Grand is one of the most expensive grands in the world. Containing an incredible 5 microphone perspectives, up to 127 layers, true staccato, direct picked strings, effects, piano body wood knocks, seat and lid sounds, and over 70,000 samples, the Ebony Concert Grand is set to be the world's largest Grand Piano sample library.

The instrument has been imperfectly sampled AND perfectly sampled, it is essentially 10 grand pianos in one. This epic grand piano sounds organic, and is suitable for situations where an expensive sound is required without sterility.

Unlike most piano sample libraries, the sounds of the fingers tapping the ivory keys, the pedal, subtle mechanical sounds, keys hitting the felt above the keyboard, have all been recorded. and even occasional seat noise, has been recorded in order to preserve as much of a life-like performance as possible. This is what is referred to as "imperfect".

Fazioli are renowned for producing the world's most expensive grand pianos, and are considered by many to be the elite of grands. With an imposing sound, this piano completes Imperfect Samples' piano line-up.

As with all Imperfect Samples instruments, the emphasis has been placed on achieving a hyper-real and convincing sampled instrument, with performance sounds.

This piano sounds REAL.

* in terms of number of samples, at the time of release.

Many commercial grand piano sample libraries suffer from a sterile sound. This imperfectly sampled library has been recorded by a music producer for his own collection, with a warm and organic sound.

The Imperfect Samples' Fazioli Ebony Concert Grand creates stunning piano passages, with an epic, yet intimate grand sound unlike any other grand piano sample library currently available.

Presented in 4 incarnations, the largest of which is provided on a portable hard disk drive, this instrument contains over a whopping 70,000 samples. The smallest version is a 'cut-down' 8 layer version totalling around 8GB.

This outstanding virtual instrument will be available worldwide for EXS24mkII, and Kontakt. A cut-down standalone VST version is planned for those who don't have Kontakt or EXS24, and will be released at a later date.

The **Fazioli Ebony Concert Grand** is available in 4 forms:

The Fazioli Ebony Concert Grand (Basic) (RRP £39.99):

This is an 8 layer version of The Fazioli Ebony Concert Grand, including one mic perspective, release samples, and FX. It contains over 5GB of data. Demos of this version of the product, are available at www.imperfectsamples.com

The Fazioli Ebony Concert Grand (Pro) (RRP £89.98):

The Fazioli Ebony Concert Grand (Pro), including 2 mic perspectives, up to 12 layers, release samples, FX, and true staccato. The Fazioli Concert Grand Pro contains over 18GB of data. Demos of this product, are available at www.imperfectsamples.com

The Fazioli Ebony Concert Grand (Complete) (RRP £119.99):

The Fazioli Ebony Concert Grand (Complete) contains 3 mic perspectives, up to 14 layers, release samples, FX, additional true staccato layers, and picked strings instruments. This instrument contains over 33GB of data.

The Fazioli Ebony Concert Grand (Extreme) (RRP £119.99):

The Fazioli Ebony Concert Grand (Extreme) is world's largest sampled grand piano, and the flagship of imperfect samples' piano line-up. Provided on a portable hard disk drive, this instrument contains 5 microphone perspectives, up to 127 layers, release samples, FX, true staccato, picked muted strings, picked sustained strings, true crotchet, as well as additional classic perfectly sampled instruments for a different tonal quality. The range of sound of this library adds incredible versatility to this stunning grand piano.

Demos of The Fazioli Ebony Concert Grand Piano are available at www.imperfectsamples.com.
